Dear Eli Port,

This is to inform you that your equipment and procedures have been assessed by AECB staff and found to satisfy the criteria set out in regulatory guide **R-117** (*Requirements for Gamma Radiation Survey Meter Calibrations*). The name and location of your organization and the name of the appropriate contact person will be maintained in our database. This information will be provided to AECB licensed users of survey meter calibration services upon request and to applicants for new licences.

The radiation survey meters specified in your submission have been amended and the complete listing is attached: (14 pages).

Future re-assessments of your calibration equipment and procedures will be done periodically. If future re-assessments continue to be positive, information on your organization will continue to be made available as described above.

If you have any questions regarding this matter, please do not hesitate to contact our office at the above address.

Sincerely,

D. Sullivan  
Head  
Laboratory Services Section

Canada

P. 02

Listing of Calibration Instruments for R.S.S.I

Date: 1 September, 1998

Generated by: Dan F. Sullivan, Head of Lab Services,  
Atomic Energy Control Board

Phone: 613-829-5566, FAX: 613-829-8959,

E-Mail: sullivan.d@atomcon.gc.ca

Note: This is not a restrictive list but an indication of instruments already approved for calibration services. Additional instruments may be added to the list by contacting the Lab Services Section of the AECSB.
